PATAKI·TILES

Welcome to Pataki Tiles, a ceramics studio specialized in architectural ceramics. We manufacture hand made floor and wall tiles following traditional production methods.

Being resistant to heat or frost, they can be installed in hearths, fireplaces or as outdoor surfaces. Use them to enliven kitchens, dining rooms, the garden or conservatories. They fit both period and modern living spaces. The designs have been selected and inspired by the heritage of medieval England.

Wonderfully mastered pavements and floors have a long tradition in Britain. The custom of using tiled surfaces in churches, yards, castles and public spaces has matured to a colourful and lasting tradition.

OLD ENGLISH TILES
